

Enhance Your View

Häfele is now the exclusive distributor of Spiggot™ Frameless Glass Fencing & Balustrade Fittings.

This new range of products complements Häfele's comprehensive architectural glass product range.

The range includes:

- Duplex 2205 grade stainless steel clamps
- Glass to glass pivots
- Wall to glass pivots
- Patch locks for gates
- Semi frameless balustrade hardware
- Modular glass panels

Introductory Offer!

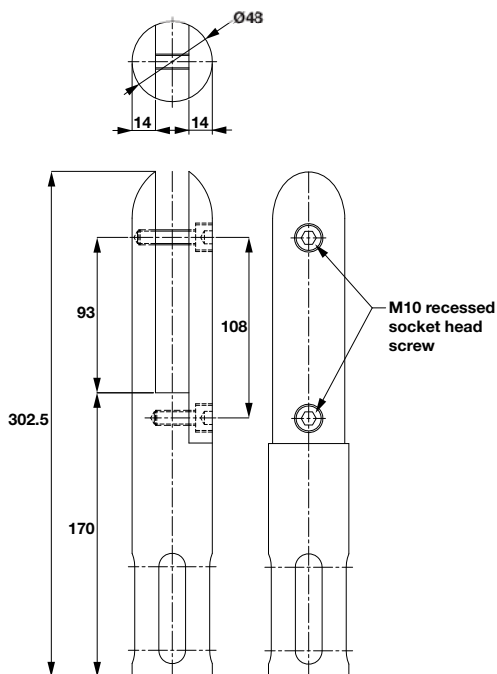

Stainless Steel Clamp

Round

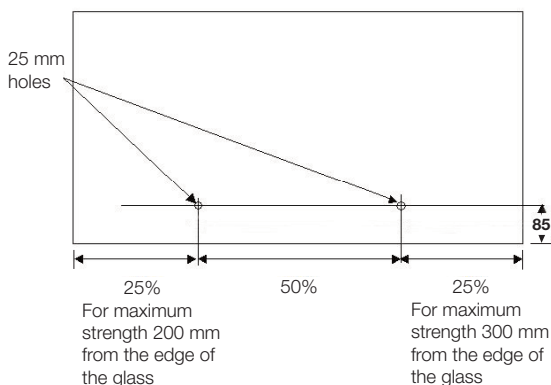

\$79.00/pc + GST*

Not including Base Cover

- Area of application: Frameless glass pool fencing
- Material: Duplex 2205 grade stainless steel
- For glass thickness: 12 mm and 15 mm
- Installation: Clamp fixing with hexagon bolt

Glass cut-out

Finish	Cat. No.
Satin	981.45.000
Polished	981.45.001

Packing: 1 piece

Duplex 2205 grade stainless steel, the new alternative to 316 stainless steel, is ideal for waterfront construction and pool areas.

Corrosion Resistance

Having a superior corrosion resistance to 316, Duplex 2205 performs well in most environments where standard austenitic stainless steel may fail. 2205's low carbon content results in a high resistance to intergranular corrosion, and higher resistance to uniform pitting, crevice corrosion and tea staining.

Stress Corrosion Resistance

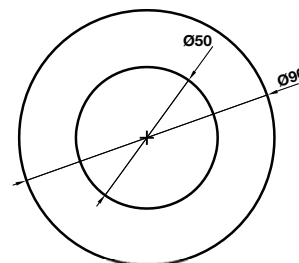

As 2205 is a duplex stainless steel, the grade is less sensitive than austenitic stainless steel to corrosion cracking in warm chlorine environments. A good resistance has been shown when exposed to hydrogen sulphide in chlorine solutions.

The Facts

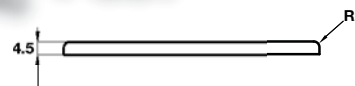

"For very aggressive applications (eg. splashed by sea water), unwashed areas, rough surfaces or those applications where no staining can be tolerated, higher grades or stainless steel such as Duplex 2205 are preferred" The Australian Stainless Steel Association.

Base Cover

Round

\$8.00/pc + GST*

- Area of application: Cover for clamp base
- Material: 316 grade stainless steel

Finish	Cat. No.
Satin	981.45.010
Polished	981.45.011

Packing: 1 piece

*Prices valid until 31st August, or while stocks last.
