# Aquasys

Modern - Modern is our very individual attitude towards things.  
The courage to leave old style away. The Aquasys latest modern design water taps  
which will be introduced to you on the following pages follows this principle.

That's the beauty of simplicity - not leaving anything out, not adding anything.  
Keeping down the cost and keeping up the expressive power and quality.  
Aquasys give us the possible choice. We can't wait to see that ...

This new designed water tap is a charm for purism looking for order.  
These pave the way to modern accents. Let this be your way!
