

Item No.: 408.24.399 & 408.25.535

XL Slide & Hinge System for Panel Attachment

- 1) Mount the XL Pocket door to the side panel referencing the included instructions.
- 2) Attach the long arm of the pivot hinge to the XL slide making sure the countersunk holes of the short arm are facing the inside of the cabinet. (Attach with two M4 x 6 mm machine screws (020.46.059)).

- 3) For a 14" wide panel, locate the pivot hinge on the back of the panel 5" from the back edge of the back wall. This will allow the front edge of the panel and the front edge of the side panel to be even when in the closed position. Adjustment to the location of the pivot hinge will determine how far the leading edge of the panel will protrude beyond the front of the side panel.
