

HÄFELE AXILO® PLINTH ADJUSTING FITTING SYSTEM

EASY. CONVENIENT. EFFICIENT.

AXILO® by Häfele is a new, revolutionary plinth adjusting fitting system. The combination of the adjusting tool and the plinth adjusting foot makes leveling a kitchen or a furniture item a simple, comfortable operation.

THE REASON FOR USING AXILO®

Easy cabinet levelling with just a few manual adjustments.

Ergonomic and back-friendly installation.

Time savings of up to 50% during kitchen or furniture assembly.

Large area of application for plinth heights from 53 to 220 mm (2 1/16" to 8 21/32").

ENGINEERED BY HÄFELE

DEVELOPMENT

Innovative system with patented technology. Ergonomic solution.

PRODUCTION

Products with high quality "Made in Germany."

LOGISTICS

Global availability.

UNIQUE FEATURES OF THE AXILO® PLINTH ADJUSTING FITTING SYSTEM

These outstanding features distinguish AXILO® from technically comparable products available from other manufacturers:

ERGONOMIC

No more bending over, crawling, or stretching: with AXILO® you can also conveniently access the rear plinth feet.

UNCOMPLICATED

The AXILO® adjusting tool can be positioned and operated from any angle. Wholly practical, particularly in areas that are difficult to access.

EFFICIENT

Since you always work in front of the cabinet with AXILO®, you always have the level in view – which saves time and energy.

LONG REACH

The unique AXILO® adjusting tool acts as an extended arm – with the additional extension you can even reach the plinth feet of corner base units.

QUICK

Convenient operation with a power tool is also possible – thanks to a 1/4" chuck, both in the AXILO® adjusting tool and also in the AXILO® extension.

UNIVERSAL

AXILO® can be used for all types of cabinetry, from a kitchen base unit, to office cabinetry and wardrobes.
