

Titebond Cold Press Veneer

Titebond Cold Press for Veneer is a high-quality, economical alternative to contact cement for large-scale bonding of veneers to flat surfaces. It is specifically formulated for cold press laminating of wood to solid woods, particleboard, MDF, plywood and other porous materials. Titebond Cold Press offers a moderate speed of set, a translucent glue line and contains none of the harmful or corrosive fumes typical of most contact cements. It also prevents bleed-through on open-grained and unbacked wood veneers.

Product Features

- Economical alternative to contact cement
- Formulated to minimize "bleed-through"
- Moderate speed of set
- No harmful vapors
- Safe - nonflammable

Physical Properties

Calculated VOC 2.0 g/L

Weight/gallon 9.2 lbs.

Chalk temperature Approximately 50°F.

Flashpoint >200°F.

Freeze/thaw stability Stable

pH 4.9

State Liquid

Color Tan

Dried Film Dark Brown

Solids 42%

Viscosity 4,500 cps

Storage life 12 months in tightly closed containers at 70°F.

*Chalk temperature indicates the lowest recommended temperature at which the glue, air and materials can be during application, to assure a good bond.

Bond Strength ASTM D-905 (On Hard Maple)

Temperature

Room Temperature

150°F. Overnight

Strength

2,508 psi

656 psi

Wood Failure

6%

0%

Application Guidelines

Application Temperature Above 50°F.

Open Assembly Time 15 minutes (70°F./50% RH)

Total assembly time 15-20 minutes (70°F./50%RH)

Minimum required spread Approximately 6 mils or 250 square feet per gallon

Required pressure application 100-250 psi, depending on substrates

Method of Application For most consistent coverage a mechanical spreader is recommended.

Cleanup Damp cloth while glue is wet. Scrape off and sand dried excess.

Limitations

Titebond Cold Press for Veneer is specifically designed for veneering and is not suited for other types of assembly applications. Not recommended for exterior use or where moisture is likely. Do not use when temperature, glue or materials are below 50°F. Freezing may not affect the function of the product but may cause it to thicken. Agitation should restore product to original form. Read MSDS before use. NOTE: STIR PRODUCT BEFORE USE TO ENSURE UNIFORMITY. KEEP FROM FREEZING.

Caution Statements

CAUTION: EYE AND SKIN IRRITANT. Contains oxydipropyl dibenzoate. Do not swallow. Do not allow eye contact or prolonged skin contact. **FIRST AID:** If swallowed, do not induce vomiting, contact physician. If eye contact occurs, flush eyes with water for 15 minutes. Wash skin contact areas with soap and water. If irritation from eye or skin contact persists, contact physician. For additional information, refer to Material Safety Data Sheet. **KEEP OUT OF THE REACH OF CHILDREN.**
